

Details of the Research Scholars who Perusing Ph.D. Under Direct Supervision:

Sl. No	Name of the Guide	Name of the Students	Part time/ Full time	Subject	Year of Registration &University
01	Dr S Manjappa	Santhoshkumar R	Part time	Electrochemical Study of Dopamine,Ascorbic acid and Uric acid using Cyclic Voltammetry at modified Carbon paste electrode.	4UB13PGN04 2013(VTU)
02		Harshavardhana A	Part time	Electrochemical Determination of Neurotransmitters using Biomolecule Modified Carbon paste Electrode	4UB15PGJ02 2015(VTU)
03		Bindu Pavan V	Part time	Electrochemical studies of some Bioactive Molecules at different modified electrodes	2021(VTU)
01	Dr. Suresha Kumara TH	Mamatha DM	Full time	“Synthesis and Biological Evaluation of new Thiophene derivatives”	2014
02		Shadakashari AJ	Part time	“Design and Biological Evaluation of New Nitrogen and Oxygen Heterocycles”	2014
03		Raghavendra AV	Part time	Synthesis, Charecterization and Biological Study of New Nitrogen and Sulfur Heterocycles”	2016
