Report on IIC 'Quarter III' activities on 26.06.2023

Title of the activity: Prototyping Innovation and Career Opportunity

Department of Computer Science and Engineering, University BDT College of Engineering, Davangere has organised an event titled “Prototyping Innovation and Career Opportunity” on 26.6.2023 from 10.30 am to 12.30 pm. The event aims to empower students to learn, collaborate, create and innovate without barriers in real time. Enhancing skills and guiding students in computer related branches to be industry ready. This program gives an overview of how to build their prototypes, fostering a culture of innovation and knowledge-sharing.

The resource person **Mr. Arun S H, Founder & CEO, nikki.build EdTech, Bangalore**, explained about web-based rapid prototyping and application of various technologies such as IoT, robotics, open Source, AI/ML, microcontrollers etc. The outcomes of the session is to create cutting-edge projects; building, prototypes and unleash the creativity through coding, innovation, brand building using open source.

Nearly fifty five students have actively participated for the program. Participants expressed that the program is very useful and informative for engineering and management students who will be looking for career in Prototyping software's.
